New Training Resources: Interactive Web-Based Training Have you tried the new web-based training courses? NC E-Procurement [web-based training](#) is available for your use on the project's web site. The training is divided into individual courses, covering topics such as system navigation, requisitioning, approving, receiving, reporting, and security administration. Each course takes about 30-90 minutes to complete. The **training is interactive**, so you will have an opportunity to try some of the steps on your own and to answer some questions to reinforce what you have learned. The training gives you an opportunity to build your knowledge **on your own schedule and at your own pace**.

When you view the [web-based training course listing](#), click on a training course title to open it. You will need Internet access and Adobe Flash Player 10 or higher to view the training courses. Please allow the download if prompted. A username and password is required to view the courses as with other NC E-Procurement training materials. This login information can be obtained from the NC E-Procurement Help Desk, 888-211-7440, option 1.

Feature Focus: Compare Catalog Items One catalog feature in the upgraded system is the ability to compare items. Two or more items can be compared side by side to quickly review the attributes of those items. From a catalog or search results view, check the boxes next to the items to be compared and click the 'Compare' button. The 'Compare Items' page will be displayed. Once the information has been reviewed, click 'Done' to return to the search results. In order to add items directly from the 'Compare Items' page, update the quantity for the desired item and click 'Add to Cart.' For more information about using catalogs and comparing items, please view the eRequisition Catalog Item job aid on the [Upgrade Job Aids](#) web page.
